

It is the job of the FCC to keep media giants from harming democracy in America. Democracy is being harmed by allowing Sinclair stations to use public airwaves free of charge, when they are required by law to serve the public interest. One-sided programs, like "Stolen Honor", do not serve the public interest. Please require the media to be fair and balanced. American media is not supposed to be a propaganda machine like Russian media was during the Cold War years. Thank you, Linda Trageser
